

Science 24 Course Outline – Hub

Facilitator: Ms. L. Sherban
Email: sherbanl@fsd38.ab.ca
Phone: 403-938-4973 (ext. 159)

What is the Hub?

The HUB is an innovative learning environment that delivers course material through a blended program including both online resources and face-to-face instruction. Learning through the Hub allows students to develop competencies related to independence, self-management and resourcefulness, in addition to learning the expected course content.

What can I expect to learn in Science 24?

Science 24 is the second course in the senior academic program building on Science 10 and/or Science 14. Students enrolled in this course are encouraged to develop lifelong learning habits such as problem solving, creativity, abstract thought, and resourcefulness in order to ensure their future successes as contributing citizens in the community. Science 24 is a course intended for students who want to go on to programs at a post secondary institution, such as Trades at SAIT.

If you have any questions or need clarification in order to be successful, please email me at sherbanl@fsd38.ab.ca.

What resources will I need?

Student will be provided with a username/password for The Hub upon registration. Access to the course allows access to all of the necessary electronic learning materials for the course. It is also expected that students sign out the accompanying textbook for the course from the library.

Textbook: McGraw-Hill Ryerson: Science Connect 2

What are my behavioural expectations for this course?

- I expect that you will attend class every day, prepared to work, with a writing utensil, an organized binder, and any other supplies or textbooks that are being used for the unit being studied.
- I expect that cell phones will be turned off before you enter the classroom; phones that are being used during class or that ring, chime, vibrate, etc. will be confiscated until the end of the lesson. Repeat offenders will receive further disciplinary action at the teacher/administrator level.
- I expect that any food or drink consumed in class is healthy and does not disturb others (smell, noises, or messes). The moment eating/drinking becomes detrimental to learning is the moment it becomes unacceptable.
- I expect that you will treat your teacher and fellow classmates with respect. Everyone has a right to be heard and to learn in a secure environment.

- I expect that you will treat the property of the school and the property of others in a proper manner.
- I expect you to always do your best. This means that you will participate in all activities involved in this class, including listening and viewing activities, and you must hand assignments in, on time and complete. I expect you to do well—and I know that you will.

What is the breakdown of grades in Science 24?

Unit A: Matter and Chemical Change	17.5%
Completion date: October 4, 2017	
Unit B: Energy Transformations	17.5%
Completion date: November, 2017	
Unit C: Disease Defense and Human Health	17.5%
Completion date: December 5, 2017	
Unit D: Safety in Transportation	17.5%
Completion date: January 19, 2018	
Final Examination	<u>30%</u>
Total	100%

Will I ever have a chance to see my teacher in person if I need help?

Yes. Hub teachers are expected to visit with all students on a weekly basis to explain any concepts and to provide help related to the course. The current schedule for visits by Ms. Sherban for semester one is as follows:

FCCHS: TBD
 HHS: TBD
 OHS: TBD

What will I be expected to do during visits by my teacher?

Students should be prepared to have questions prepared after attempts at the material have been prior to the visit. Also, you should be ready to discuss your progress in the course and to make any adjustments to your pacing so that you remain on track to complete the course on time.
